

Wasla

Global Configurations (Site-Wide Constants)

Managed under the "Globals" section to ensure consistency across the entire platform.

- **Header:**
 - **Function:** Controls the top navigation bar and site branding.
 - **Fields:** Dynamic `navItems` array allowing up to 6 custom links.
- **Footer:**
 - **Function:** Manages social media links, contact details, and copyright text.

Collections

A. Home Page

The entry point of the platform, structured into logical tabs:

Hero Section: Features a dynamic Slider (Array of images) with "Rich Text" overlays and Call-to-Action (CTA) buttons like "Join Us."

Layout Blocks: A modular area where admins can stack components like "Mission" or "Vision"

B. About Us

Purpose: Storytelling and mission statement.

Content: Uses the Content Block for long-form text.

C. Programs

Structure: Managed as a Collection or a dedicated Archive Block.

Content: Detailed listings of educational services, workshops, or training modules offered by Wasla.

D. Events

Structure: Date-sensitive entries.

Content: Includes Event Title, images, Date/Time picker, Location, and a registration link or button.

E. News (Blog), Programs, and Projects.

Structure: A dynamic Collection for frequent updates.

Content: Includes Event Title, feature images, categories, and a Lexical rich-text editor for professional formatting.

F. Galleries

Structure: Visual-first grid layout.

Content: Photo albums and video links documenting Wasla's activities, managed via the central Media Collection.
